INTERIOR DESIGN PORTFOLIO 2022 | 2023

## ABOUT ME

I am an enthusiastic and hardworking individual with a vibrant personality dedicated to my pursuits. My approach is rooted in kindness, empathy, and a quest for excellence in all my endeavors. As a student of interior design, I'm fueled by an optimistic outlook, eagerly anticipating the chance to translate my designs into tangible experiences in the world. I prioritize others' needs, consistently offering a helping hand and putting their well-being before my own. This commitment to excellence, coupled with a genuine desire to contribute positively to others' lives, forms the heart of everything I do.

## BRIEF

Design a retirement home for Keith (aged 60) and Kim (aged 57) in Knysna, considering their current and future needs. The couple, residing and working locally, intends to build a residence accommodating their two adult children abroad (aged 28 and 26) and potential guests. The site, characterized by a 12-meter sideways gradient, offers options for a single-story, double-story, or split-level design, as suggested by the builder. The focus is on the prominent front NW facing lagoon view, with a subtle sea view over the eastern head on the SW side. Additionally, the design should factor in the couple's two cats, emphasizing adaptability for the older occupants and versatile hosting capabilities.

## CONCEPT

A harmonic blend of modern and contemporary, delicately paired with classical details and pops of colour, all nestled harmoniously within its surroundings. Purposefully designed to embody an inviting and spacious atmosphere, House gess offers the perfect place for Kim and Keith to start a new chapter in their lives. With a split-level layout that highlights the natural beauty of the surroundings and cleverly integrates the home with the sloping terrain, it maximises the stunning views of the lagoon. Every corner of this house resonates with a balance of elegance and comfort, offering a sanctuary where modern design meets timelessness, creating an environment where new memories and cherished moments will undoubtedly flourish.

## FIRST PLACE

This project was a competition project in which I placed first. The house will be built in the upcoming years, and will showcase my design.

## BRIEF

Design your dream living space in Cape Town City bowl. Choose between integrating your building between existing structures or starting fresh with demolition, adapting the elongated and narrow property with a street-facing entrance. As the client, your lifestyle narrative shapes the design. The rectangular space has internal dimensions of 4500 mm x 11000 mm, spanning a ground floor, first floor, second floor, and rooftop garden. Connectivity options to neighbouring buildings are available, with access from the front and an optional rear courtyard.

## CONCEPT

Welcome to 38 Glencoe Ave, my own classical haven, where warm neutrals blend with opulent accents to create timeless elegance. Plush, ornate furniture invites intimate conversations, complemented by classical architectural details and captivating statement pieces. Artwork and personal décor add sentimental value, while soft ambient lighting completes the cozy ambiance. Seamlessly integrating modern convenience, functional spaces reflect a balance of classical aesthetics and personal touches.

### BRIEF

Design Time students, seize the opportunity to craft unique cabin designs for Stay Unique. The company plans six cabins near Cape Town in 2023, expanding nationally in 2024. Two cabins are underway, and the Design Time group's innovative designs are eagerly awaited. Selected designs will be built, offering students the chance to experience the final product. Stay Unique provides professional photography and influencer content for student portfolios, offering exposure and career benefits. This is a prime chance for Design Time students to showcase creativity and gain industry recognition.

### CONCEPT

The Eco Cabin at Cape Point Nature Reserve is a sustainable retreat designed for a transformative experience in nature. Its minimalist architecture and natural materials blend seamlessly with the surroundings, fostering a deep connection with nature. The cabin's commitment to eco-conscious living, featuring solar panels and rainwater harvesting, ensures a minimal environmental impact. Guests enjoy luxurious comfort while contributing to environmental preservation. This private retreat

unwind, recharge, and reconnect with nature. The Eco Cabin is a stand-out choice for those seeking an eco-friendly escape in Cape Point's stunning landscapes. The Stay Unique team is exploring the possibility of securing land for this cabin through collaboration with Cape Nature.

### FIRST PLACE

This project was a group project in which my partner and I placed first. Our design will be built in the upcoming years.

### **BRIEF**

Run a competition with Design Time students whereby they put together a design scope for the city block fronting Strand, Loop, and Bree Street. Think residential conversion, new offices, campus, hotel, hostel etc – the world is your oyster. Main objective to be creative/quirky/different and to not play it safe.

### **CONCEPT**

Introducing "The Den" – a sanctuary in the heart of the city, blending comfort, security, and tranquillity through thoughtful design, colour, and textures. Inspired by the city's heritage and spiritual places, statues, art, and colour subtly showcase its rich diversity. The lobby features a strength-symbolizing hand statue, symbolizing transformation from hardship to a city of acceptance. "The Den" is a modern, sleek, and inclusive apartment block catering to mid to higher income brackets. Em-

ments, a spa, gym, and a rooftop bar/pool with breathtaking city views. Incorporating inexpensive finishes, sustainability, and timeless design, "The Den" ensures elegance and invites lasting memories. The proposed gym and spa on the 7th floor offer an outdoor feel, connecting to a rooftop with foliage and a small bistro setup. Apartments progressively become more luxurious, culminating in penthouses on the 15th floor with heightened ceilings, reflecting success and happiness. My focus will be on designing the studio apartments, a penthouse, rooftop amenities, and the lobby, aiming for a space that uplifts both residents and the surrounding area.

## BRIEF

The 2023 brief acknowledges social media's real-world impact, centered on a wealthy content creator seeking to create an enticing space in Tankwa Karoo for film and social media crews. Design submissions must leverage the existing site's building, integrate PG Bison products, and address fundamental human needs using earth, fire, air, and water elements. The challenge lies in innovatively incorporating water in a desert setting. One must create out of the box spaces for sleeping, eating, socializing and bathing.

## CONCEPT

Orions temple is a unique content creation retreat nestled in the picturesque landscapes of the Karoo. This structure harmoniously blends the natural beauty of the region while including captivating Instagramable spaces. The central theme revolves around the awe-inspiring concept of stars and constellations, creating an enchanting atmosphere for content creators and social media enthusiasts. Orions temple is not just a place to stay; it's an immersive experience that intertwines the beauty of

signed to spark creativity and elevate content creation, providing endless opportunities for capturing mesmerizing visuals that will leave both guests and their audiences in awe.

### BRIEF

CUBE Developers are looking for 3 beautifully designed and curated 'show apartments' in order for clients to select their chosen model for purchase. Your task is to design ONE of three 'show apartments'. Research the following interior design aesthetics and select one style. This aesthetic will govern your interior scheme broadly and must be carefully considered when designing your kitchen, bathroom, and cabinetry detail. The styles being between classical, contemporary, and minimal-

### CONCEPT

The design for the ON Q apartment represents a natural contemporary space. Through influence of the Wabi Sabi style, I designed a well-curated blend of contemporary elements and natural materials. Incorporating warm tones, wood, concrete and stone as well as contemporary art, iconic furniture and adequate lighting, resulted in a warm, well-lit and sophisticated environment.

### BRIEF

The project aims to revitalize and reimagine the interior of Barnet Fair Barbershop, contributing to the repositioning and enhancement of the brand's identity. The redesigned space intends to be contemporary, edgy, and pristine, harmonizing with the natural elements present, such as wood and stone, while eliciting a sense of freshness akin to discovering a hidden gem within the city center. Uniqueness is a priority; the space should stand apart from any other in Cape Town, naturally spark-

space for barbers and a welcoming environment for clients, fostering a great experience for both parties.

### CONCEPT

Barnet fair is a barbershop located in Cape town, Bree street. This space aims to bring an unforgettable experience to each client and with the following design this will be achieved. This design is chic, contemporary and memorable. From the map on the ceiling showing ones exact location, to the warm timber flooring underfoot, this barber shop interior plus its impeccable service, will never be forgotten.

### SECOND PLACE

This project was a competition project in which I placed second. The barbershop will be built in the near future and will feature elements of my design.

**BRIEF**

Luxury hospitality brand TINTSWALO, in collaboration with developers Zuckerman Sachs, has enlisted Architect Neal Sachs to lead the redesign of the Westlake Golf Clubhouse. This dynamic partnership has afforded you, the designer, unparalleled creative freedom to re-imagine and curate the interior of this vibrant and entirely new space. Your task is to bring forth an original design aesthetic, crafting an environment that resonates with the club's sociable, active clientele. The club's allure

exquisitely re-imagined facilities.

**CONCEPT**

Westlake Golf Course lies against the amethyst slopes of the Silvermine mountains holding one of Cape Town's Premier Courses, my design replicates this sophisticated yet natural space, providing a cohesive blend of modern and old school elements.

**BRIEF**

Create an apartment for any chosen designer's of your choice, base the design on their preferences, informed by thorough research. Utilize finishes and furniture selections that reflect the designer's distinctive style and aesthetic choices, ensuring a cohesive and personalized living space.

**CONCEPT**

I've chosen Cori Quinton as my designer, aligning the vision with her minimalistic style. The design embraces natural elements like granite, screed, marble, and stone tile laminate for flooring, complementing accent pieces. Embracing a modern contemporary palette of greys, whites, blues, and yellows, inspired by Cori's prior work, the aim is a sleek, open-plan apartment. The focus is on minimalism, creating a fresh, clean, and inviting contemporary space.

#### **BRIEF**

Conceptualize, design+create a working table light it is important to bear in mind, the purpose of your light i.e. ambience or task.

#### **CONCEPT**

This design is created to act as an exploded table lamp, in which the lamp shade has been pulled away from the bulb by the curved aluminium rod. This lamp will act as a decorative table lamp, where the soft ambient light will reflect off the steel plate, bringing about a feeling of tranquility and warmth into the space.

**BRIEF**

During the photography course led by INGE PRINS, our class was tasked with multiple assignments, including capturing a portrait of a friend, photographing the Winchester Boutique Hotel's exterior, and creating a self-portrait. Throughout the course, we gained valuable insights into harnessing natural light and ambient lighting techniques. Additionally, we gained skills in utilizing cameras effectively and learned the art of composition by properly framing our subjects within the shot.

### **BRIEF**

In this project, you'll create five seamless 200mm x 200mm textile designs using Photoshop, each to be displayed on an A3 submission template at 1:1 and 1:4 scales. One design will be selected for digital fabric printing, emphasizing balance between positive and negative space and experimenting with color (with limitations on one design). Focus on flat solid colors while allowing for watercolor or gradient effects, keeping in mind that exact color reproduction may vary. Metallic colors cannot be printed, so attention to space, color, line weight, and design elements is crucial for success.
